CLASSROOM CORNER – Numbers, Numbers and more Numbers! The Pre-Algebra 2 students have been working with lots and lots of numbers. They started the school year learning about powers, exponents, variables and expressions. They used these things to solve equations and follow the order of operations. From there, they learned about positive and negative integers to use in multiplication, division, addition and subtraction problems. Now the students are learning how to solve equations and inequalities using multiplication, division, subtraction and addition. If you see a student, ask them what PEMDAS means.
